

Our Services

We are the single access point for all of your telecom needs.

We are one of the most competitive and innovative integrated solutions providers in the industry today. We have continually evolved our service footprint and our product platform in order to offer the most complete and robust telecommunications portfolio.

It's time to consolidate your services and reduce costs with the telecom company known for strong growth and satisfied customers for more than a decade.

VoIP

Our business-grade Voice over IP service offers a robust enterprise voice solution. Make the jump to VoIP and improve your company's communication capabilities while taking advantage of significant cost savings.

Internet Services

Our high-speed internet access solutions include T-1, Ethernet, DSL, Cable, and MPLS. We also provide several flavors of web hosting to get your business online.

Integrated

Integrated Access offers a T-1 solution with customizable bandwidth, unlimited local calling, and as few as six lines. This service combines local, long distance, and Internet into one low-cost solution.

Managed Data

Multiple locations need a way to maintain fast, secure and reliable communications. We offer the data services you need to connect your networks.

Conferencing

Save time and money with TelePoint audio conferencing, or use ViewPoint and WebPoint to enhance your conference calls with video or web access to documents.

Local/Long Distance

We offer all of the local and long distance services you'd expect. Customize your service with special area rates and per-line features. We work with industry leaders to provide the backbone for our reliable, low-cost long distance services.

Why Choose Access Point?

✓ SAVINGS

Controlling and understanding today's telecom costs is a key concern for businesses. We understand that telecom expense management is a high priority. We believe competitive rates and a supreme billing system is vital to successfully controlling these expenses.

✓ ESTABLISHED

While other telecom companies come and go, we've been going strong since 1996. Since inception, we have positioned ourselves to be an alternative for businesses that want superior, personalized attention and responsive customer service along with competitive market pricing.

✓ CUSTOMER SERVICE

Customer Service is what makes Access Point the best choice for your business telecommunication needs. Our customer service department is available 24/7, with responses to 98.7% of calls within 30 seconds.

✓ A SERVICE FOR EVERY NEED

Access Point, Inc. is a complete business communications provider offering multiple services nationwide.
